Chandler, AZ 85224

Dear Mr. van Gallio:

The Environmental Protection Agency is conducting a national survey of hazardous waste management facilities to examine the specific closure plans, post-closure plans, and cost estimates currently maintained at each facility, for the purpose of assessing the consistency of plans and estimates. As part of this survey, I request that you submit the following information, pursuant to Section 3007(a) of the Resource Conservation and Recovery Act:

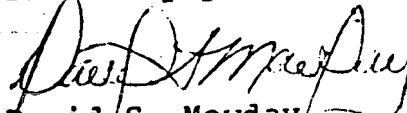

- 1) A copy of the complete closure plan for the facility, and the cost estimates for closure which match the plan; and
- 2) If applicable, a copy of the complete post-closure plan for the facility, and the cost estimates for post-closure which match the plan.

Section 3007 of RCRA authorizes the Administrator of EPA to require persons subject to the Act to furnish information as may be necessary for the purpose of administering the Act. Failure to provide information would constitute a violation of the Act, and could subject the violator to enforcement action pursuant to Section 3008 of the Act. Submission of false information is a criminal offense.

The information requested must be provided notwithstanding its possible characterization as confidential information or trade secrets. If you believe that any portion of the information you submit is confidential, please assert a confidentiality claim in accordance with 40 CFR Section 2.203(b). EPA regulations governing confidentiality of business information are set forth in Part 2, Subpart B of Title 40 of the Code of Federal Regulations. A copy is attached for your guidance.

Please forward the requested plan(s) and cost-estimate(s) to this division within 10 days of receipt of this letter. As these documents are kept at facilities, you need only submit a copy of the existing documents. If you have any questions or need any assistance, please call Karen Schwinn or Alexis Strauss at 415-974-8124. Your cooperation is appreciated.

Sincerely yours,

David S. Mowday
Acting Director
Toxic and Waste Management Division
